

ABOUT THE INSTITUTION

K.L.N. College of Information Technology is a self-financing co-educational Engineering College in Madurai, started in 2001 by munificence of philanthropist and well wishers in Sourashtra community, led by Founder President, an enthusiastic, educationalist and a pioneer industrialist, **Amarar Shri. K.L.N. Krishnan**. The college is Sourashtra Linguistic Minority Institution sponsored by K.L.N. Sourashtra college of Engineering Council.

The College is approved by All India Council for Technical Education, affiliated to Anna University Chennai and an ISO 9001 : 2008 Certified institution. The College offers five UG Courses in the branches of CSE, ECE, EEE, IT, Civil and four PG Courses, M.Tech (IT), M.E. (CEM), M.E.(CSE) & M.E.(CN). The College has approved Research Centre for IT & ECE departments, by Anna University Chennai. The college is equipped with fully air-conditioned Computing centre with 132 Mbps (1:1) leased line internet connectivity and modern laboratories to meet industrial standards.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering (ECE) was established in the year 2001 with the vision of developing the department as a Centre of Excellence in R&D, in the field of Electronics and Communication Engineering and make the students blossom into meritorious and

and self disciplined engineers. It also offers M.E. - Communication and Networking program. Highly dedicated and well qualified team of faculty members in the Department having considerable academic and research experience are striving their best to provide quality education. The department successfully completes AICTE-MODROBS project worth of Rs.8.5 lakhs received from AICTE for the modernization of Digital Signal Processing Lab. The department has MOU with BSNL and associated with Professional bodies like IETE, ISTE and EDC.

ABOUT THE PROGRAM

The Internet of Things (IoT) is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.

IoT has evolved from the convergence of wireless technologies, Micro-Electro Mechanical Systems (MEMS) and the internet. The convergence has helped tear down the walls between Operational Technology (OT) and Information Technology (IT), allowing unstructured machine-generated data to be analyzed for insights that will drive improvements. This FDP serves as a platform for research scholar

faculty, engineers and students to interact on cutting-edge technologies in IoT.
